

I honestly feel that the FCC shouldn't implement any kind of proposal that would diminish the effect of Indiana's Telephone Privacy Law protections. I value time at home with family, and am so glad it is no longer interrupted by pesky phone calls. There were times before the law went into effect, that I would receive as many as 26 calls per day! The importance of this law is just as it says, a PRIVACY law, I appreciate it and stand by it.
